-	-	-	3%

## DEFINITIONS

**Activity Requirement:** To maintain active status, a Consultant must have 1,200 QV (of which 250 must be New Volume or "NV") in a 6-month period.

**Paid-As Title:** achieved monthly based on the requirements met (PV, NV, BV, 50% Rule, and Director Branches)

**Volume Used to Determine Your Paid-As Title:**

- **QV:** Qualifying Volume - generated by sales to Clients and Members, as well as your personal orders.
- **NV:** New Volume - QV contributed by new Clients, Members and personally sponsored Consultants when a new account is created and an order is placed within the same calendar month.
- **BV:** Business Volume - QV generated by your entire downline + your own QV.

**Volume Used to Determine How Much You Are Paid:**

- **PV:** Personal Volume - determines how you are paid for selling Beautycounter products. PV is generated by sales to Clients and Members, but not by your personal orders.
- **CV:** Commissionable Volume - determines how you are paid for building a downline. CV is 75% of the PV on an item, and it's generated by your downline Consultants' sales to Clients and Members, as well as their personal orders.

Some items, like business aids, enrollment fees, and host rewards items do not carry QV, PV, or CV. PV and CV from other countries will be adjusted by a Market Factor to bring them in line with your local country's values.
